28th February is celebrated as National Science Day (NSD) in India. NSD is celebrated to **commemorate the discovery of 'Raman Effect'**, which led to Sir C.V. Raman to be the first Asian to receive a Noble Prize in 1930. NSD is celebrated to spread a message about the importance of science used in the daily life of the people, and at the same time to display all the activities, efforts and achievements in the field of science for human welfare.
